Healthcare Plans with Automated Payment Processing

Welcome to Healthcare Plans with automated payment processing from Vet Space. Welcome to improved cash flow, reduced administration and an enhanced customer treatment experience.

Managing payments is critical to the commercial success of a Veterinary Practice. Late or inconsistent payments hit your cash flow and the additional collection costs erode your profitability. We're told this is a major barrier for Practices wanting to offer Healthcare Plans.

Direct Debit

An effective payment processing solution can free up your administrators, keep the bank manager at bay and make a significant contribution to your bottom line. Direct debit is the simplest and most convenient way for customers to make regular payments towards a Healthcare Plan. Now its easy to set up and automate.

Continued...

Fully Integrated Payment Processing

Our new solution allows you to create direct debit mandates from within your Practice Management System. Once in place it will automatically collect direct debit payments from customers anywhere in the UK. Simply design a Healthcare Plan and assign a mandate.

Improved Cash Flow

Direct debit payment solutions enhance Practice cash-flow. They make Healthcare Plan payment simple for customers and help you to regularise your cash receipts. Plus, with direct debit through Vet Space cleared funds are credited into your bank account within 5 working days.

Safe And Secure Solution

Our payment processing provider utilises Military grade security and file encryption to protect customer data. No customer payment data is held within your system ensuring you are fully PCI DSS compliant and secure in the event of a Cyber attack.

Industry Comparable Rates

We have leveraged our market size to be able to offer individual Practice's direct access to volume discounts usually reserved for Corporates. With low transaction fees, Vet Space offers a compelling reason to offer your customers Healthcare Plans through direct debit.

Enhanced Customer Service

No one likes to be chased for bill payment, it causes friction, plus it is a time consuming task for the Practice team. Collecting payments through Vet Space direct debit provides an easy and effective means to bill your customers. Clients can complete a direct debit mandate during a consultation or return it later by email. Once approved direct debit processing is automated within your Practice Management System, removing reconciliation and re-keying. It will even suspend a Healthcare Plan if a direct debit payment fails.

Deploy Direct Debit Today

Healthcare Plan with direct debit is available for installation with the latest version of Voyager.
